

CLASSICAL BALLET BEGINNINGS

Semester Long Sessions!

Starting with the very beginning basics of classical ballet and finishing the session with a demonstration and performance to share with family and friends. Ballet is one of the oldest, most beloved and respected of all organized dance forms. Learning to dance ballet coincides with learning and practicing the values of hard work, respect, commitment and self-awareness.

Ms. Taylor began her dance career 18+ years ago in Southern CA where she was classically by American Ballet Theatre teaching professionals. In the Spring of 2020, she graduated from Belhaven University with her degree in Sports Medicine and Exercise Science alongside Ballet and Modern Technique and Performance. Taylor is so excited to teach at Archway Lincoln and can't wait to share her love for this art form with her students!
