

## Little Medical School STEM Classes Coming to Archway Lincoln!

LMS offers STEM activity-based classes where we strive to inspire the next generation of Healthcare Heroes! We are offering 8-week classes beginning in August and October 2024.

### Little Vet Dog School (K-2) and Little Doctor School (3-5) - August

After "adopting" their very own plush puppy, students will role play the key responsibilities of a veterinarian, including how to properly perform a nose-to-tail exam.

Students will use real medical instruments (stethoscope, reflex hammer, and blood pressure cuff) and practice scrubbing, suturing, and tying knots like a real surgeon.

### Marine Explorers (K-2) and Wilderness Medicine (3-5) - October

Each participant will become the caretaker of a plush sea turtle, conduct health checks, explore the diversity of sea turtle species, and join a team effort to rescue and release a Leatherback sea turtle back into the wild.

Students will gain essential survival techniques, including splint setting, tourniquet application, hypothermia management, and versatile uses of a bandana for emergencies.
