

TECH CLUB: WEB DEVELOPMENT

Dive into the world of web development with our beginner-friendly class designed to teach students the foundational skills required to create their own web pages using HTML (HyperText Markup Language) and CSS (Cascading Style Sheets). Throughout the course, students will gain hands-on experience in building web pages from scratch.

No prior coding experience is necessary, making this course perfect for anyone in grades 4 and up interested in starting their journey in web development. Join us and take the first step towards becoming a skilled web developer. Laptops are provided. The tech club includes 15 sessions, with breaks during weeks when there is no school.
