

# CLASSICAL BALLET BEGINNINGS

**Starting with the very beginning basics of classical ballet and finishing the session with a demonstration and performance to share with family and friends. Ballet is one of the oldest, most beloved and respected of all organized dance forms. Learning to dance ballet coincides with learning and practicing the values of hard work, respect, commitment and self-awareness.**

Ms. Taylor began her dance career over 19 years ago in Southern California, where she was classically trained by American Ballet Theatre teaching professionals. In the spring of 2020, she earned her degree in Sports Medicine and Exercise Science from Belhaven University, with additional training in Ballet, Modern Technique, and Performance. She is thrilled to be teaching at Archway Lincoln and looks forward to sharing her love of dance with her students!
