iCode
EMPOWERING FUTURE INNOVATORS

TECH CLUB:
ROBOTICS

ARCHWAY CLASSICAL ACADEMY
LINCOLN
A Great Hearts Academy

This course introduces the fundamentals of robotics including building and battling bots. We will also cover some basic coding of the robots using a block coding language, similar to Scratch. **Students must work in teams, sharing kits.** Our instructors will work to ensure each student participates fully.

No prior coding experience is necessary, making this course perfect for anyone in grades 2–5 interested in starting their journey in robotics or programming. The tech club includes 16 sessions, skipping 3/11. This club repeats what was offered Fall 2025 – for new content please contact iCode for options.

Archway Lincoln // Grades 2-5

Preparing students for success in today's tech-driven world.

Program Details:
- January 14 - May 6
- Session One 1:00-2:05 pm
- $109/month for 4 months
- Laptops & VEX robotics provided
- iCode instructor-led activities
- Proprietary STEAM curriculum
